

# SGG INTERNAL GLAZING

## SGG INTERNAL GLAZING

SGG internal glass products suit every application. SGG range of internal glass creates light and space whilst preserving privacy and security.

Bring colour, light and texture into your home, whether you are looking for a classic or contemporary feel. Glass can accommodate any style or taste with a timeless appearance and quality finish. Choose from a selection of transparent, translucent or opaque glass products depending on the nature of the application.

Create light and space, whilst preserving privacy and security. Choose a translucent, matt, textured or printed glass to suit any style. Maximising the amount of natural light available is an essential element in the design of any building or interior. It plays an important role in ensuring the well being of its occupants. Translucent glass will provide obscurity to protect your privacy, whilst remaining stylish.

Saint-Gobain Glass has a product to suit every application from mirrors to decorative glass, screen printed to lacquered, in a wide range of colours and patterns.
