- in small decorative styling details and inserts such as in bars, restaurants, hotels, theatres and retail environments

ADVANTAGES

Authentic decorative appearance

The aged appearance of MIRALITE ANTIQUE and MIRALITE VERSAILLES offers the imperfections that are so desirable in many upmarket interiors. The appearance of antique mirrors may be achieved over large areas if required with the consistency of manufactured quality and excellent environmental credentials providing designers with confidence throughout a project.

Highly durable and easy to maintain

Produced using advanced manufacturing techniques MIRALITE ANTIQUE and MIRALITE VERSAILLES will withstand regular household cleaning products. Do not use harsh products (acid solution, highly alkaline

or very abrasive liquids). Ensure that no residue from cleaning products is left around the edges.

Safety

MIRALITE ANTIQUE and MIRALITE VERSAILLES may be specified with a protective plastic film applied to the back of the mirror for use in high traffic areas and others where impact may be a possibility. The film prevents the glass from shattering in to large shards, providing extra safety in case of impact or accidental damage, with no adverse effect on the appearance of the mirror.
