

# Online Training and Support

## Online Training and Support

**The past few weeks have been different, for everybody.**

Our Technical, Sales and Marketing teams have been working from home, providing ongoing training and support to our customers.

We've stayed in touch using digital technology and delivered online training, and support to over 1000 Architects, Specifiers, Contractors, Engineers, Facade Makers and Glass Processors.

### **Live CPD Webinars**

Our live online CPD seminars have covered a wide range of building glass topics including:

- How to specify glass
- Aesthetics of facades, considering visual issues related to glass
- Glass Forever - sustainability matters

## **Live Online Glass Surgeries**

Our Technical and R&D specialists have hosted in depth Glass Surgeries, looking at challenging subjects, such as coatings on glass, acoustics, fire glass and the development of digital technologies delivering realistic glass rendering.

## **Live@5 - Live Interviews with Giants of the Construction Industry**

Every Thursday, we've interviewed special guests from the world of construction, discussing all things glass, and of course much more!

A huge thank you to all of our guests for sharing so much with everybody, about their lives and inspirational building projects.

Saint-Gobain Glass UK & Ireland online events are ongoing. Keep a look out and register online.

We have a lot of exciting events lined up, including an hour long, Live@5 Special.
